Eriez® Offers Complete Guide to Industrial Metal Detectors

Eriez® offers a 28-page brochure, **"How to Choose & Use Industrial Metal Detectors,"** an in-depth reference manual which incorporates detailed illustrations and covers the basics of metal detector selection and operation.

"Our brochure is an essential tool for professionals to select custom metal detection equipment to meet their exact application requirements," said Dave Heubel, National Sales Manager. "Eriez also offers its lab facilities and expert consultation to test products under realistic operating conditions and with known contaminants to assist in detector selection and optimization."

The brochure contains multiple sections, including: an overview of metal detectors and definitions, basic layout and various styles, how to select the right metal detector for various applications and proper operation and maintenance techniques.

The metal detectors highlighted in the brochure include Eriez E-Z Tec®, Metalarm™ and 1200 Series Models. These metal detectors are suited for applications in pharmaceutical companies to quarries.

The free brochure is available in PDF format and can be downloaded from the Eriez Web site (www.eriez.com). From the homepage, click "Literature Library" for access to this and many other Eriez brochures.

Eriez is recognized as world authority in advanced technology for magnetic, vibratory and inspection applications. The company's magnetic lift and separation, metal detection, x-ray, materials feeding, screening, conveying and controlling equipment have application in the process, metalworking, packaging, recycling, mining, aggregate and textile industries. Eriez manufactures and markets these products through ten international facilities located

on six continents. For more information, call toll-free (888) 300-ERIEZ (3743) within the U.S. and Canada. For online users, visit www.eriez.com or send e-mail to eriez@eriez.com. Eriez World Headquarters is located at 2200 Asbury Road, Erie, PA 16506.
