Eriez-Australia Announces New Sales Director

Erie, PA—[Eriez®](#) has named Ezio Viti as the new Sales Director at Eriez-Australia. Viti, a mechanical engineer with more than 30 years of experience applying process solutions into the mining, resources recovery, waste water and general process industries, will manage the sales team for Eriez-Australia.

Before joining Eriez, Viti served as a business development consultant. In this role, he assisted local and offshore technology start-ups as well as overseas suppliers seeking to enter the Australia and New Zealand (ANZ) market space. Prior to that, Viti spent six years as Sales Director and CEO of Steinert Australia where he was responsible for the Asia-Pacific (APAC) region in addition to managing the groups' mining centre of excellence.

“Ezio’s vast market expertise, sales acumen and depth of experience in management, operations, project delivery and business development will be invaluable as we work toward our ongoing goal of diversifying and expanding Eriez-Australia’s market share,” says Jaisen Kohmuench, Managing Director of Eriez-Australia.

Since its establishment in 1966, [Eriez-Australia](#) has grown into a leading provider of processing equipment to Australia, Indonesia, Papua New Guinea, New Zealand, Fiji and other surrounding countries. Eriez-Australia has a 21,000-square-foot manufacturing plant located in Epping, Victoria, Australia. This state-of-the-art facility is primarily focused on [magnetic](#), [vibratory](#), [screening](#), [flotation](#) and [metal detection equipment](#) for mining and minerals beneficiation. Other areas of expertise include tramp metal removal and materials handling for general industry and eddy current separation equipment for scrap and municipal refuse recycling.

Eriez is recognized as world authority in separation technologies. The company’s magnetic lift and separation, metal detection, fluid filtration, flotation, materials feeding, screening, conveying and controlling equipment have application in the process, metalworking, packaging, plastics, rubber, recycling, food, mining, aggregate and textile industries.
